

Your business. Your coating. Your choice. **Your color!**

Polychem has literally thousands of colors, including the full RAL range, available in the signature Polychem polyester powder. As well as our own color collections, we have also matched many other standard shades, from Federal standards and ANSI colors to well known interior paint colors.

Polychem color collections include:

Classic Collection

Classic and elegant browns, greys and golds, with a choice of effects.

Crescent Collection

Dark shades including sultry blacks, warm browns, velvety purples and deep greens in flat mattes, high gloss effects and textures.

Enchanted Collection

Soft ice cream colors that sparkle like ice and are just as sweet.

Woodtone Collection

8 flattering colors inspired by natural wood shades and textures.

Auto Collection

Some of the most popular colors used in the automotive industry.

Weathered Earth Collection

Soft, simple shades inspired by nature at its best.

Specialty RALs®

Please turn over for more info.

Outdoor Living Collection

Designed for exterior use, a range of classic colors and effects.

Urban Illusion

Dark, urban colors that look like they're textured but are smooth to the touch.

Translucent Collection

Bright translucent shades, with or without metallic flake added.

Infinity Collection

Choose from over 200 colors and effects, from the bold and brash to the sweet and simple.

Prestige Collection

A little bit of everything designed to provide a great overview of what's possible with Polychem.

Barely There Collection

Beautiful, soft, neutral shades with a hint of color that's barely there.
